Beam Software Backs RMAI 2022 Annual Conference with Gold Sponsorship

December 15, 2021 (Sacramento, CA) – Beam Software continues to invest in the receivables management industry through their gold sponsorship of the Receivables Management Association International (RMAI) Annual Conference, occurring February 7-10, 2022 in Las Vegas. The RMAI Annual Conference is the premier event for the receivables management industry, bringing together key participants including debt buying companies, collection agencies, collection law firms, brokers, originating creditors, and affiliates.

This is Beam’s sixth year sponsoring the Annual Conference, and their fourth consecutive year as a Gold Sponsor, the highest level. “We appreciate Beam Software’s generous support as we celebrate the 25th anniversary of the RMAI Annual Conference,” stated RMAI Executive Director, Jan Stieger. “Beam Software is a true RMAI partner, not only for Annual Conference but throughout the year. In addition to supporting our event, Beam Software’s gold sponsorship directly supports our ongoing state and federal advocacy.”

RMAI anticipates the 2022 Annual Conference, with its focus on in-person networking and education at the Aria Resort Hotel in Las Vegas, will be a welcome step back towards normalcy. While RMAI’s hybrid virtual and in-person 2021 Annual Conference, held during the COVID-19 pandemic, was a success, attendees prefer in-person attendance. Receivables management industry representatives are looking forward to meeting, greeting, and making and building connections again.

“People are just tired of the pandemic at this point. They can’t wait to network in person rather than on a Zoom call,” said Beam Software CEO, Tom Mohr. “We value the opportunity to attend and sponsor the RMAI Annual Conference every year, and Beam is always looking for new ways to support RMAI’s work in the receivables management industry.”

Beam Software is exhibiting at the conference as well and can be found at Booth #423. Stop by their booth to learn more about Beam’s portfolio management and collection software platform. Tom Mohr is the inaugural chair of the RMAI Affiliate Task Force which provided valuable input for the planning of the RMAI 2022 Annual Conference.

About RMAI

Receivables Management Association International (RMAI) is a nonprofit trade association representing more than 580 companies that purchase or support the purchase of performing and nonperforming receivables on the secondary market. The RMAI [Receivables Management Certification Program](#) and [Code of Ethics](#) set the global standard within the receivables industry due to the rigorous uniform standards of best practice which focus on protecting consumers. More information about RMAI is available at www.rmaintl.org.

[RMAI's 2022 Annual Conference](#) is the 25th anniversary of the conference and brings together stakeholders in the receivables management industry—welcoming attendees and exhibitors, presenting highly-respected educational programming, and numerous networking opportunities with key participants, including debt buying companies, collection law firms, collection agencies, brokers, vendors, major creditors, and international members.
