Phin Solutions, LLC celebrates 20 years of service.

Ramsey, Minn – Phin solutions is celebrating their 20th anniversary in 2020. Phin Solutions is a national information services company specializing in compliance monitoring services.

In 2000, Phin Solutions was created at the request of clients to provide enhanced bankruptcy and deceased notification services. This is when the vision of Phin Solutions was born: to provide complete information service solutions to collection and recovery departments within the financial services marketplace.

Phin Solutions offers software and services to help organizations identify and manage consumer life stage events and events that impact their credit accounts and accounts standing. By using their Vigilant-CMSSM software and services platform Phin provides clients a secure environment while delivering complete and timely bankruptcy and deceased information, litigious debtor identification, active duty military certification, as well as filing bankruptcy proof of claims.

Today Phin Solutions serves over 80 customers across the financial services spectrum, from auto companies, banks, collection agencies, debt buyers, insurance and utility companies. Their solution approach is driven by their extensive experience working in the data management technologies, bankruptcy record collection, bankruptcy notification and bankruptcy recovery solutions spaces.
